Unmodified Report on Financial Statements Issued in Accordance with Government Auditing Standards and Accompanied by Required Supplementary Information, Supplementary Information, and Other Information

Independent Auditor's Report

To the Board of Trustees Rule Independent School District Rule, Texas 79547

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Rule Independent School District (the District) as of and for the year ended August 31, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Rule Independent School District, as of August 31, 2016, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in notes to the financial statements, in the previous fiscal year (2015), the District adopted new accounting guidance prescribed by GASB #68 for its pension plan a multiple-employer, cost-sharing, defined benefit pension plan that has a special funding situation. Because GASB #68 implements new measurement criteria and reporting provisions, significant information is included in the Government Wide Statements. Exhibit A-1 discloses the District's Net Pension Liability and some deferred resource outflows and deferred resource inflows related to the District's pension plan. Exhibit B-1 discloses the adjustment to the District's pension expense. Our opinion is not modified with respect to the matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and GASB 68 pension liability and contributions be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Rule Independent School District's basic financial statements. The combining and individual non-major fund financial statements, and the Texas Education Agency required information in conformity with laws and regulations of the State of Texas in Exhibits J-1 through J-2, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual non-major fund financial statements and the Texas Education Agency required information in conformity with laws and regulations of the state of Texas in Exhibits J-1 through J-2 are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual non-major fund financial statements are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on this section.

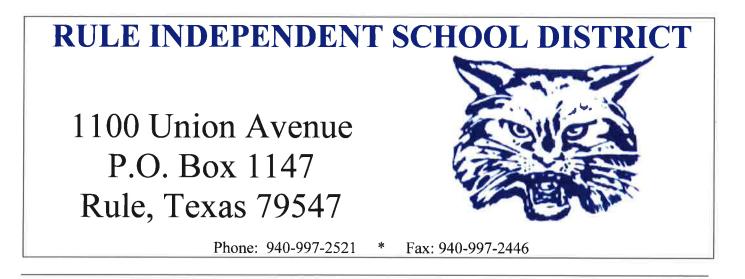

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 14, 2016, on our consideration of the Rule Independent School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Rule Independent School District's internal control over financial reporting and compliance.

Respectfully submitted,

James E. Rodgers and Company

James E. Rodgers and Company, P.C.

MANAGEMENT'S DISCUSSION AND ANALYSIS

In this section of the Annual Financial and Compliance Report, we, the administration of **Rule Independent** School District, discuss and analyze the District's financial performance for the fiscal year ended August 31, 2016. Please read it in conjunction with the independent auditor's report and the District's Basic Financial Statements.

FINANCIAL HIGHLIGHTS

The District's summary financial information for the current fiscal year is as follows:

Highlights of Current Fiscal Year Finances

District's Total Net Position at the end of the Year	\$ 1,694,182
Total District Revenues for the Current Fiscal Year	\$ 1,819,817
Total District Expenses for the Current Fiscal Year	\$ 1,823,825
Fund Balance in the General Fund at the End of Year	\$ 915,023

Changes in the District's Finances from the Previous Fiscal Year

	7 7	Increase (Decrease	
		\$	%
Change in Net Position:	2		
Change in the District's Total Net Position	\$	(4,008)	-0.24%
Revenue Changes:			
Change in the District's Total Revenues	\$	2,497	0.14%
Change in the District's Property Tax Revenues	\$	25,910	5.52%
Change in the District's State Aid Formula Grants	\$	(14,592)	-1.39%
Change in Operating Grants and Contributions	\$	9,153	3.55%
Expense Changes:			
Change in the District's Total Expenses		\$38,797	2.17%
Other Information:			
Change in the District's General Fund Balance	\$	86,385	10.42%
Excess (Deficit) of Actual Revenue over Budgeted Revenue	\$	30,105	0.05%

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The government-wide financial statements include the Statement of Net Position and the Statement of Activities. These statements provide information about the activities of the District as a whole and present a longer-term view of the District's property and debt obligations and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise.

Fund financial statements report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds. For governmental activities, these statements tell how services were financed in the short term as well as what resources remain for future spending. They reflect the flow of current financial resources, and supply the basis for tax levies and the appropriations budget. For proprietary activities, fund financial statements tell how goods or services of the District were sold to departments within the District or to external customers and how the sales revenues covered the expenses of the goods or services. The remaining statements, fiduciary statements, provide financial information about activities for which the District acts solely as a trustee or agent for the benefit of those outside of the district. The notes to the financial statements provide narrative explanations or additional data needed for full disclosure in the government-wide statements or the fund financial statements.

The combining statements for non-major funds contain even more information about the District's individual funds. These are not required by TEA. The sections labeled TEA Required Schedules and Federal Awards Section contain data used by monitoring or regulatory agencies for assurance that the District is using funds supplied in compliance with the terms of grants.

Reporting the District as a Whole

The Statement of Net Position and the Statement of Activities

The analysis of the District's overall financial condition and operations begins with the Statement of Net Position (Exhibit A-1). Its primary purpose is to show whether the District is better off or worse off as a result of the year's activities. The Statement of Net Position includes all the District's assets and liabilities at the end of the year while the Statement of Activities includes all the revenues and expenses generated by the District's operations during the year. These apply the accrual basis of accounting which is the basis used by private sector companies.

All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. The District's revenues are divided into those provided by outside parties who share the costs of some programs, such as tuition received from students from outside the district and grants provided by the U.S. Department of Education to assist children with disabilities from disadvantaged backgrounds (program revenues), and revenues provided by the taxpayers or by TEA in equalization funding processes (general revenues). All the District's assets are reported whether they serve the current year or future years. Liabilities are considered regardless of whether they must be paid in the current or future years.

These two statements report the District's net position and the changes in that position. The District's net position (the difference between assets, deferred outflows, liabilities, and deferred inflows) provide one measure of the District's financial health, or financial position. Over time, increases or decreases in the District's net position are one indicator of whether its financial health is improving or deteriorating. To fully assess the overall health of the District, however, you should consider non-financial factors as well, such as changes in the District's average daily attendance or its property tax base and the condition of the District's facilities.

In the Statement of Net Position and the Statement of Activities, we combine the District into two kinds of activities (governmental and business type activities).

Governmental activities–All of the District's basic services are reported here, including instruction, counseling, extracurricular activities, food services, transportation, maintenance, community services, and general administration. Property taxes, tuition, fees, and state and federal grants finance most of these activities.

Business type activities-The District did not operate business type activities during the current year.

Reporting the District's Most Significant Funds

Fund Financial Statements

The fund financial statements begin with the Governmental Funds Balance Sheet (Exhibit C-1) and provide detailed information about the most significant funds—not the District as a whole. Laws and contracts require the District to establish some funds, such as grants received under the "No Child Left Behind" act from the U.S. Department of Education. The District's administration establishes many other funds to help it control and manage money for particular purposes (like campus activities). The District's two kinds of funds (governmental and proprietary) use different accounting approaches.

Governmental funds–Most of the District's basic services are reported in governmental funds. These use modified accrual accounting (a method that measures the receipt and disbursement of cash and all other financial assets that can be readily converted to cash) and report balances that are available for future spending. The governmental fund statements provide a detailed short-term view of the District's general operations and the basic services it provides. We describe the differences between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in a reconciliation schedule following each of the fund financial statements.

Proprietary funds–The District reports the activities for which it charges users (whether outside customers or other units of the District) in proprietary funds using the same accounting methods employed in the Statement of Net Position and the Statement of Activities. In fact, the District's enterprise funds (one category of proprietary funds which the District does not have at present) are the business-type activities reported in the government-wide statements but containing more detail and additional information, such as cash flows. The internal service funds (the other category of proprietary funds in Exhibits D-1, D-2, and D-3) report activities that provide supplies and services for the District's other programs and activities–such as the District's self-insurance programs.

The District as Trustee

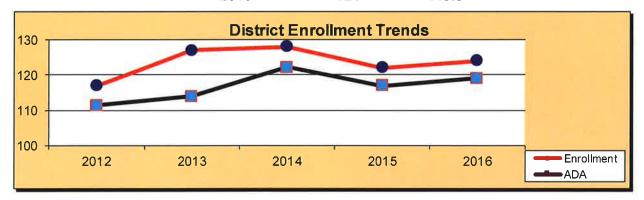

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or fiduciary, for money raised by student activities and alumni scholarship programs. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net Position (Exhibit E-1). We exclude these resources from the District's other financial statements because the District cannot use these assets to finance its operations. The District is only responsible for ensuring that the assets reported in these funds are used for their intended purposes.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

State funding in Texas is based upon the District's average daily attendance, thus the District's revenue is highly dependent on enrollment trends. The District receives additional weighted funding for students enrolled in career and technology coursework, gifted and talented, special education, bilingual, and compensatory education programs. The demographics of the District and the types of coursework students pursue are continuing to evolve in the District. The following chart details the enrollment trends of the District.

ENR	ENROLLMENT TRENDS								
Year	Enrollment	ADA							
2012	117	111.4							
2013	127	114.0							
2014	128	122.2							
2015	122	117.0							
2016	124	119.0

A financial summary of the District's funds for the current year is as follows:

The District did modify its budget during the year resulting in a change in budgeted expenditures between the original and final budget in the District's General Fund. Amendment changes by function are shown in Exhibit G-1.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of the current year, the District had invested in a broad range of capital assets, including facilities and equipment for instruction, transportation, athletics, administration, and maintenance. This year's major additions and the net change in total capital assets are as follows:

None	\$
TOTAL	\$ -
Total Additions	\$ -
Total Deletions	10,000
Net Change	\$ (10,000)

The District's next fiscal year general fund capital budget indicates no significant capital outlay.

<u>Debt</u>

The District's long term debt as of the current year end is as follows:

	Interest Rate on Issue	Amounts Original Issue		С	terest urrent Year	Outstanding 8/31/2016	Next Year' Total Princi and Interes Requireme	pal st
None	0.00%	\$	-	\$	÷.	\$ -	\$	
Totals		\$	-	\$	-	\$	\$	-

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The District's elected and appointed officials considered many factors when setting the next fiscal year budget and tax rates. Those factors included a stable local economy and a slightly decreasing average student population during the previous five years as indicated on page 9. These indicators were taken into account when adopting the General Fund budget for next year. A summary of the next fiscal year budget is as follows:

Fiscal Year	20	16 - 2017	7 A	Adopted B	luc	lget			
				Child		Debt

RULE INDEPENDENT SCHOOL DISTRICT RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION AUGUST 31, 2016

Total Fund Balances - Governmental Funds	\$ 915,023
1 The District uses internal service funds to charge the costs of certain activities, such as self-insurance and printing, to appropriate functions in other funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position. The net effect of this consolidation is to increase (decrease) net position.	÷
2 Capital assets used in governmental activities are not financial resources and therefore are not reported in governmental funds. At the beginning of the year, the cost of these assets was \$2,534,910 and the accumulated depreciation was \$1,574,637. In addition, long-term liabilities, including bonds payable, are not due and payable in the current period, and, therefore are not reported as liabilities in the funds. The net effect of including the beginning balances for capital assets (net of depreciation) and long-term debt in the governmental activities is to increase (decrease) net position.	960,273
3 Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of including the current year capital outlays and debt principal payments is to increase (decrease) net position.	π
4 Included in the items related to debt is the recognition of the District's proportionate share of the net pension liability required by GASB 68 in the amount of \$310,361, a Deferred Resource Inflow related to TRS in the amount of \$23,089 and a Deferred Resource Outflow related to TRS in the amount of \$180,884. This amounted to a decrease in Net Position in the amount of \$152,566.	(152,566)
5 The current year depreciation expense increases accumulated depreciation. The net effect of the current year's depreciation is to decrease net position.	(56,725)
6 Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing unearned revenue as revenue, eliminating interfund transactions, reclassifying the proceeds of bond sales as an increase in bonds payable, and recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to increase (decrease) net position.	28,177

RULE INDEPENDENT SCHOOL DISTRICT RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED AUGUST 31, 2016

Total Net Change in Fund Balances - Governmental Funds	\$ 86,385
The District uses internal service funds to charge the costs of certain activities, such as self-insurance and printing, to appropriate functions in other funds. The net income (loss) of internal service funds are reported with governmental activities. The net effect of this consolidation is to increase (decrease) net position.	
Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of removing the current year capital outlays and debt principal payments is to increase (decrease) net position.	-
Depreciation is not recognized as an expense in governmental funds since it does not require the use of current financial resources. The net effect of the current year's depreciation is to decrease net position.	(56,725)
Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to the accrual basis of accounting. These include recognizing unearned revenue as revenue, adjusting current year revenue to show the revenue earned from the current year's tax levy, eliminating interfund transactions, reclassifying the proceeds of bond sales, and recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to increase (decrease) net position.	1,184
The implementation of GASB 68 required that certain expenditures be de-expended and recorded as deferred resource outflows. These contributions made after the measurement date of $8/31/2015$ caused the change in the ending net position to increase. Contributions made before the measurement but during the 2016 FY were also dexpended and recorded as a reduction in the net pension liability for the district. This also caused a increase in the change in net position. The District recorded their proportionate share of the pension expense during the measurement period as part of the net pension liability. The amounts were expensed for FY2016 for pension expense columns 6 - 12 from TRS data and the amounts were de-expended for the net deferred resouce inflow recognized by TRS in the measurement period. This caused a net decrease in the change in net position. The impact of all of these is to decrease the change in net position by \$34,852.	(34,852)

RULE INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED AUGUST 31, 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Rule Independent School District (the "District") is a public educational agency operating under the applicable laws and regulations of the State of Texas. It is governed by a seven member Board of Trustees (the "Board") elected by registered voters of the District. The District prepares its basic financial statements in conformity with generally accepted accounting principles accepted in the United States of America as applied to governmental entities. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The District also complies with the requirements of the appropriate version of Texas Education Agency's *Financial Accountability System Resource Guide* (the "Resource Guide") and the requirements of contracts and grants of agencies from which it receives funds.

A. REPORTING ENTITY

The Board of Trustees (the "Board") is elected by the public and has the authority to make decisions, appoint administrators and managers, and significantly influence operations. It also has the primary accountability for fiscal matters. Therefore, the District is a financial reporting entity as defined by the Governmental Accounting Standards Board ("GASB") in its Statement No. 14, "The Financial Reporting Entity." There are no component units included within the reporting entity.

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The Statement of Net Position and the Statement of Activities are government-wide financial statements. They report information on all of the **Rule Independent School District** non-fiduciary activities with most of the inter-fund activities removed. *Governmental activities* include programs supported primarily by taxes, state foundation funds, grants and other intergovernmental revenues. *Business-type activities* include operations that rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates how other people or entities that participate in programs the District operates have shared in the payment of the direct costs. The "charges for services" column includes payments made by parties that purchase, use, or directly benefit from goods or services provided by a given function or segment of the District. Examples include tuition paid by students not residing in the district, school lunch charges, etc. The "grants and contributions" column includes amounts paid by organizations outside the District to help meet the operational or capital requirements of a given function. Examples include grants under the Elementary and Secondary Education Act. If revenue is not program revenue, it is general revenue used to support all of the District's functions. Taxes are always general revenues.

Inter-fund activities between governmental funds and between governmental funds and proprietary funds appear as due to/due from on the Governmental Fund Balance Sheet and Proprietary Fund Statement of Net Position and as other resources and other uses on the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balance and on the Proprietary Fund Statement of Revenues, Expenses and Changes in Fund Net Position. All inter-fund transactions between governmental funds and between governmental funds and internal service funds are eliminated on the government-wide statements. Inter-fund activities between governmental funds and enterprise funds remain on the government-wide statements and appear on the government-wide Statement of Net Position as internal balances and on the Statement of Activities as inter-fund transfers. Inter-fund activities between governmental funds and fiduciary funds remain as due to/due from on the government-wide Statement of Activities.

The fund financial statements provide reports on the financial condition and results of operations for three fund categories - governmental, proprietary, and fiduciary. Since the resources in the fiduciary funds cannot be used for District operations, they are not included in the government-wide statements. The District considers some governmental and enterprise funds major and report their financial condition and results of operations in a separate column.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues result from providing goods and services in connection with a proprietary fund's principal ongoing operations; they usually come from exchange or exchange-like transactions. All other revenues are non-operating. Operating expenses can be tied specifically to the production of the goods and services, such as materials and labor and direct overhead. Other expenses are non-operating.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting, as do the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources and expenditures and other financing uses).

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available, and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for un-matured interest and principal on long-term debt, which is recognized when due. The expenditures related to certain compensated absences and claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources. The District considers all revenues available if they are collectible within 60 days after year-end.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the "susceptible to accrual" concept, that is, when they are both measurable and available. The District considers them "available" if they will be collected within 60 days of the end of the fiscal year. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as deferred revenues until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors sometimes require the District to refund all or part of the unused amount.

The Proprietary Fund Types and Fiduciary Funds are accounted for on a flow of <u>economic</u> resources measurement focus and utilize the accrual basis of accounting. This basis of accounting recognizes revenues in the accounting period in which they are earned and become measurable and expenses in the accounting period in which they are incurred and become measurable. The District applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989, unless these pronouncements conflict or contradict GASB pronouncements. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the fund Statement of Net Position. The fund equity is segregated into Net investment in capital assets, restricted net position, and unrestricted net position.

D. FUND ACCOUNTING

The District reports the following major governmental funds:

- **General Fund** The general fund is the District's primary operating fund. This fund accounts for all financial resources except those required to be accounted for in another fund.
- **Special Revenue Fund** The District **did not maintain** major special revenue governmental funds during the current year.
- **Capital Projects Fund** The District **did not maintain** major capital project governmental funds during the current year.
- **Debt Service Fund** The District **did not maintain** major debt service governmental funds during the current year.
- Other Governmental Fund The District did not maintain other major governmental funds during the current year.

The District reports the following major enterprise fund(s):

The District **does not maintain** major enterprise funds at present.

Additionally, the District reports the following fund type(s):

Governmental Funds:

- **Special Revenue Funds** The District accounts for resources restricted to, or designated for, specific purposes by the District or a grantor in a special revenue fund. Most Federal and some State financial assistance is accounted for in a Special Revenue Fund and sometimes unused balances must be returned to the grantor at the close of specified project periods.
- **Debt Service Funds** The District accounts for resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds in a debt service fund when applicable.
- **Capital Projects Funds** Proceeds from long-term debt financing and revenues and expenditures related to authorized construction and other capital asset acquisitions are accounted for in a capital projects fund when applicable.
- **Permanent Funds** The District accounts for donations which the donor has stipulated that the principal may not be expended and where the income may only be used for purposes that support the District's programs when applicable.

Proprietary Funds:

- **Enterprise Funds** The District's activities for which outside users are charged a fee roughly equal to the cost of providing the goods or services of those activities are accounted for in an enterprise fund when applicable.
- **Internal Service Funds** Revenues and expenses related to services provided to organizations inside the District on a cost reimbursement basis (such as workers' compensation) are accounted for in an internal service fund when applicable.

Fiduciary Funds:

- **Private Purpose Trust Funds** The District accounts for donations for which the donor has stipulated that both the principal and the income may be used for purposes that benefit parties outside the District. When applicable, the District maintains a private purpose trust fund to provide scholarships for students that have graduated from the District.
- **Pension (and Other Employee Benefit) Trust Funds** These funds are used to account for local pension and other employee benefit funds that are provided by the District in lieu of or in addition to the Teacher Retirement System of Texas when applicable.
- **Investment Trust Fund** When applicable, this fund is used by the District to hold assets in trust for other entities participating in an investment program managed by the district.
- Agency Funds The District accounts for resources held for others in a custodial capacity in agency funds including funds used to account for student activities.
- The balance due to the internal service fund from the general fund resulted from obligations made to maintain capital for the operation of the internal service fund for such activities as self-insurance; the balance is not scheduled to be collected in the subsequent year.
- All remaining balances resulted from the time lag between the dates that (1) inter-fund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.
- Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.
- During the current year ended August 31, 2016, the District did not make a one-time transfer of funds from the general fund to the debt service fund to subsidize, in part, the District's obligation of interest and sinking fund requirements.

E. OTHER ACCOUNTING POLICIES

- 1. For purposes of the statement of cash flows for proprietary funds, the District considers highly liquid investments to be cash equivalents if they have maturity of three months or less when purchased.
- 2. The District reports inventories of supplies using the first-in, first-out inventory cost method. The supplies include consumable maintenance, instructional, office, athletic, and transportation items. Under the purchase method, supplies are recorded as expenditures when they are purchased. Inventories of food commodities are recorded at market values supplied by the Department of Agriculture. Although commodities are received at no cost, their fair market value is supplied by the Department of Agriculture and recorded as revenue and expenditures when received. Material inventories (if any) including food commodities are recorded as an asset and a corresponding amount of expenditures are reduced at year-end.
- 3. In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

- 4. It is the District's policy to permit some employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the District does not have a policy to pay any amounts when employees separate from service with the District. All vacation pay is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.
- 5. Capital assets, which include land, buildings, furniture and equipment and infrastructure assets are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Buildings, furniture and equipment of the District are depreciated using the straight-line method over the following estimated useful lives:

ASSETS	YEARS
Buildings	40
Buildings and Improvements	40
Infrastructure	40
Vehicles	10
Office Equipment	10
Computer Equipment	10

- 6. Since Internal Service Funds in the District support the operations of governmental funds, they are consolidated with the governmental funds in the government-wide financial statements. The expenditures of governmental funds that create the revenues of internal service funds are eliminated to avoid "grossing up" the revenues and expenses of the District as a whole.
- 7. Restricted assets, if applicable, of the District are limited to cash and certificates of deposit which have been gifted to the District with the stipulation that only the earnings are available for current and future scholarship recipients.
- 8. The Districts that participate in self-funded workers' compensation programs execute inter-local agreements that define the responsibilities of the parties. The program, if applicable, provides statutory workers' compensation benefits to its members and their injured employees.

9. Net Position and Fund Balances:

Government-wide and Proprietary Fund Net Position:

Government-wide and proprietary fund net positions are divided into three components:

- Net investment in capital assets—consist of the historical cost of capital assets less accumulated depreciation and less any debt that remains outstanding that was used to finance those assets plus deferred outflows of resources less deferred inflows of resources related to those assets.
- Restricted net position—consist of assets that are restricted by the District's creditors (for example, through debt covenants), by the state enabling legislation (through restrictions on shared revenues), by grantors (both federal and state), and by other contributors.
- Unrestricted—all other net position is reported in this category.

Governmental Fund Balances:

In the governmental fund financial statements, fund balances are classified as follows:

- Non-spendable—Amounts that cannot be spent either because they are in a non-spendable form or because they are legally or contractually required to be maintained intact.
- Restricted—Amounts that can be spent only for specific purposes because of the District's state or federal laws, or externally imposed conditions by grantors or creditors.
- Committed—Amounts that can be used only for specific purposes determined by a formal action by Board of Trustees' ordinance.
- Assigned—Amounts that are designated by the Superintendent for a particular purpose but are not spendable until a budget ordinance is passed or there is a majority vote approval (for capital projects or debt service) by the Board of Trustees.
- Unassigned—All amounts not included in other spendable classifications.

10. Use of Restricted Resources:

When an expenditure/expense is incurred that can be paid using either restricted or unrestricted resources (net position), the District's policy is to first apply the expenditure/expense toward restricted resources and then toward unrestricted resources. In governmental funds, the District's policy is to first apply the expenditure toward restricted fund balance and then to other, less-restrictive classifications—committed and then assigned fund balances before using unassigned fund balances.

- 11. As of the end of this fiscal year, the District prospectively applies Governmental Accounting Standards Board ("GASB") Statement No. 72, Fair Market Value Measurement and Application. GASB Statement No. 72 provides guidance for determining a fair value measurement for reporting purposes and applying fair value to certain investments and disclosures related to all fair value measurements.
- 12. Investment income reported in one fund has not been assigned directly to another fund by the District.
- 13. The Data Control Codes refer to the account code structure prescribed by the Texas Education Agency (TEA) in the *Financial Accountability System Resource Guide*. Texas Education Agency requires school districts to display these codes in the financial statements filed with the Agency in order to insure accuracy in building a statewide database for policy development and funding plans.
- 14. Deferred Outflows of Resources:

The District reports decreases in net assets that relate to future periods as deferred outflows of resources in a separate section of its government-wide and proprietary funds statements of net position. There is no deferred outflow of resources reported in this year's financial statements. No deferred outflows of resources affect the governmental funds financial statements in the current year.

15. Deferred Inflows of Resources:

The District's governmental funds report a separate section for deferred inflows of resources. This separate financial statement element reflects an increase in net assets that applies to a future period(s). The District will not recognize the related revenues until a future event occurs. The District has only one type of item which occurs because governmental fund revenues are not recognized until available (collected not later than 60 days after the end of the District's fiscal year) under the modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, deferred property taxes and grants are reported in the governmental funds balance sheet. The District did not have deferred inflows of resources to report in its government-wide or proprietary fund financial statements for the current year.

16. Pensions:

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

II. <u>RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS</u>

A.EXPLANATION OF CERTAIN DIFFERENCES BETWEEN THE GOVERNMENTAL FUND BALANCE SHEET AND THE GOVERNMENT-WIDE STATEMENT OF NET POSITION

Exhibit C-2 provides the reconciliation between the fund balance for total governmental funds on the governmental fund balance sheet and the net position for governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that capital assets are not financial resources and are therefore not reported in governmental funds. In addition, long-term liabilities, including bonds payable, are not due and payable in the current period and are not reported as liabilities in the funds. The details of capital assets and long-term debt at the beginning of the year were as follows:

Capital Assets at the Beginning of the Year	H	Net Value at Historical Accumulated Beginning of Cost Depreciation Year		ginning of	Change in Net Position			
Land	\$	18,000	\$)Ē.	\$	18,000		
Buildings and Improvements		2,272,138		(1,397,926)		874,212		
Furniture and Equipment	244,772			(176,711)		68,061		
Construction in Progress					-			
Change in Net Position							\$	960,273
					Р	ayable at		
Long-term Liabilities at the					Be	ginning of		
Beginning of the Year						Year		
Bonds Payable					\$			
Add Unamortized Bond Premium / Di	isco	unt						
Notes and Capital Leases Payable						-		
Accrued Interest - Bonds, Notes, and	Caj	pital Lease	s			:(#:		
Change in Net Position								
et Adjustment to Net Position							\$	960,273

B.EXPLANATION OF CERTAIN DIFFERENCES BETWEEN THE GOVERNMENTAL FUND STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES AND THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES

Exhibit C-4 provides reconciliation between the net changes in fund balance as shown on the governmental fund statement of revenues, expenditures, and changes in fund balances and the changes in net position of governmental activities as reported on the government-wide statement of activities. One element of that reconciliation explains that current year capital outlays and debt principal payments are expenditures in the fund financial statements, but should be shown as increases in capital assets and decreases in long-term debt in the government-wide statements. This adjustment affects both the net position balance and the change in net position shown in Exhibit C-2 and Exhibit C-4. The details of this adjustment are as follows:

	Am	ount	Adjustments To Changes in Net Position	Adjustments to Net Position
Current Year Capital Outlay				
Land	\$	3 2		
Buildings & Improvements				
Furniture & Equipment				
Construction in Progress		-		
Total Capital Outlay		3 .	-	
Debt Principal Payments	7			
Bond Principal		: 		
Note Principal Payments				
Capital Lease Payments		-		
Other Adjustments				
Total Principal Payments		5 7 5		
Total Adjustment to Net Position			\$ -	\$ -

Another element of the reconciliation on Exhibits C-2 and C-4 are described as various other reclassifications and eliminations necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. This adjustment is the result of several items. The details of this adjustment are as follows:

	А	mount	to C	justments Change in t Position	justments to Net Position
Adjustments to Revenue, Unearned Revenue, Beg	. Ne	t Positio	on:		
Beg. of Year Unearned Tax Revenue/Internal Ser. Property tax adjustments to convert from the modified	\$	26,993			\$ 26,993

Totals			\$	1,184	\$ 28,177

III. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. BUDGETARY DATA

The Board of Trustees adopts an "appropriated budget" for the General Fund, Debt Service Fund (if applicable) and the Food Service Fund (which is included in the Special Revenue Funds). The District is required to present the adopted and final amended budgeted revenues and expenditures for each of these funds. The District compares the final amended budget to actual revenues and expenditures. The General Fund Budget report appears in Exhibit G-1 and the other two reports are in the J Exhibits as reported in the required TEA Exhibits.

The following procedures are followed in establishing the budgetary data reflected in the basic financial statements:

1. Prior to August 20, the District prepares a budget for the next succeeding fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.

2. A meeting of the Board is then called for the purpose of adopting the proposed budget. At least ten days public notice of the meeting must be given.

3. Prior to September 1, the budget is legally enacted through passage of a resolution by the board. Once a budget is approved, it can only be amended at the function and fund level by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings. Each amendment must have Board approval. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year end. Because the District has a policy of careful budgetary control, several amendments were necessary during the year. However, none of these were significant.

4. Each budget is controlled by the budget coordinator at the revenue and expenditure function/object level. Budgeted amounts are adopted and amended by the Board of Trustees. All budget appropriations lapse at year-end. A reconciliation of fund balances for both appropriated budget and non-appropriated budget special revenue funds is as follows:

	Augu 2016 Bala	Fund
Appropriated Budget Funds - Food Service Special Revenue Fund	\$	1
Non-appropriated Budget Funds		
All Special Revenue Funds	\$	

B. EXCESS OF EXPENDITURES OVER APPROPRIATIONS

The District **did not incur an excess of expenditures over appropriations** in any function that was material to the financial statements.

C. DEFICIT FUND EQUITY

The District did not incur a deficit fund balance in any fund during the current school year.

IV. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS

A. CASH, CASH EQUIVALENTS AND INVESTMENTS

Cash and Cash Equivalents

The carrying amount of the District's cash and temporary investments at the end of the fiscal year follows:

CASH AND INVESTMENTS - BY ACCOUNT TYPE	2016
Cash in Bank - Including Money Market Accounts	\$ 457,015
Certificates of Deposit	502,673
Lone Star and TexStar Investment Pool Funds	51
Total Cash and Investments	\$ 959,739
CASH AND INVESTMENTS - BY FUND	2016
Cash and Investments - General Fund	\$ 916,468

Cash and Investments - Enterprise	1.201
Cash and Investments - Internal Service	
Cash and Investments - Agency	21,677
Cash and Investments - Trusts	.
Cash and Investments - Other	14 N
Total Cash and Investments	\$ 959,739

District Policies and Legal and Contractual Provisions Governing Deposits

<u>Custodial Credit Risk for Deposits</u>: State law requires governmental entities to contract with financial institutions in which funds will be deposited to secure those deposits with insurance or pledged securities with a fair value equaling or exceeding the amount on deposit at the end of each business day. The pledged securities must be in the name of the governmental entity and held by the entity or its agent. The District's cash deposits at year end and at the date of the highest cash balance were entirely covered by FDIC insurance and/or pledged collateral or bond held by the District's agent bank in the District's name, and therefore, the District was not exposed to custodial credit risk during the current year.

<u>Foreign Currency Risk:</u> The District limits the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit by (state an appropriate policy, such as, limiting all deposits denominated in a foreign currency to less than 5% of all deposits.)

As of the end of the current fiscal year, the following are the District's cash and cash equivalents with respective maturities and credit rating:

				Maturity in less than 1			aturity in			Credit
Type of Deposit for Cash and Cash Equivalents	Fa	air Value	Percent		year	1 -	10 years	Years		Rating
Cash (FDIC Demand Deposit Accounts)	\$	457,015	47.62%	\$	457,015	\$	7.	\$		n/a

Investments

District Policies and Legal and Contractual Provisions Governing Investments

Compliance with the Public Funds Investment Act

The **Public Funds Investment Act** (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports, and establishment of appropriate policies. Among other things, it requires a governmental entity to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit.

Statutes authorize the entity to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas and its agencies; (2) guaranteed or secured certificates of deposit issued by state and national banks domiciled in Texas; (3) obligations of states, agencies, counties, cities and other political subdivisions of any state having been rated as to investment quality not less than an "A"; (4) No load money market funds with a weighted average maturity of 90 days or less; (5) fully collateralized repurchase agreements; (6) commercial paper having a stated maturity of 270 days or less from the date of issuance and is not rated less than A-1 or P-1 by two nationally recognized credit rating agencies OR one nationally recognized credit agency and is fully secured by an irrevocable letter of credit; (7) secured corporate bonds rated not lower than "AA-" or the equivalent; (8) public funds investment pools; and (9) guaranteed investment contracts for bond proceeds investment only, with a defined termination date and secured by U.S. Government direct or agency obligations approved by the Texas Public Funds Investment Act in an amount equal to the bond proceeds. The Act also requires the entity to have independent auditors perform test procedures related to investment practices as provided by the Act. The District is in substantial compliance with the requirements of the Act and with local policies.

Additional policies and contractual provisions governing investments for the District are specified below:

<u>Credit Risk:</u> To limit the risk that an issuer or other counterparty to an investment will not fulfill its obligations the District limits investments in (list investments covered by the district's credit risk policy, such as commercial paper, corporate bonds, mutual bond funds) to the top (or top 2 or 3) ratings issued by nationally recognized statistical rating organizations (NRSROs). As of the current fiscal year, the district's investments in (category such as commercial paper) were rated (give appropriate information, for example, A1 by Standard & Poor's, F-1 by Fitch Ratings, etc.) (If a credit quality disclosure is required and the investment is unrated, the disclosure should indicate that fact.)

<u>Custodial Credit Risk for Investments:</u> To limit the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in possession of an outside party the District requires counterparties to register the securities in the name of the district and hand them over to the District or its designated agent. This includes securities in securities lending transactions. All of the securities are in the District's name and held by the District or its agent.

<u>Concentration of Credit Risk:</u> To limit the risk of loss attributed to the magnitude of a government's investment in a single issuer, the District limits investments to less than 5% of its total investments. The District further limits investments in a single issuer when they would cause investment risks to be significantly greater in the governmental and business-type activities, individual major funds, aggregate non-major funds and fiduciary fund types than they are in the primary government. Usually this limitation is 20%.

<u>Interest Rate Risk</u>: To limit the risk that changes in interest rates will adversely affect the fair value of investments, the District requires (specify some policy guideline such as "at least half of the investment portfolio to have maturities of less than one year on a weighted average maturity basis").

<u>Foreign Currency Risk for Investments:</u> The District limits the risk that changes in exchange rates will adversely affect the fair value of an investment by avoiding all investments denominated in a foreign currency.

The District categorizes its fair value measurements with the fair value hierarchy established by generally accepted accounting principles. the hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy below. In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The District's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

As of the end of the current fiscal year, the District had no investments subject to the fair value measurement.

The District also has no investments measured at the Net Asset Value (NAV) per Share (or its equivalent).

B. PROPERTY TAXES

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 31 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available (1) when they become due or past due and receivable within the current period and (2) when they are expected to be collected during a 60-day period after the close of the school fiscal year.

C. DELINQUENT TAXES RECEIVABLE

Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectible tax receivables within the General and Debt Service Funds are based on historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

D. INTERFUND BALANCES AND TRANSFERS

Inter-fund balances at year end consisted of the following amounts:

		ue From	Due To		
FUND	Ot	ner Funds	Oth	er Funds	
General Fund					
Major Governmental Funds	\$	1	\$	-	
Non-major Governmental Funds		28,779		-	
Internal Service Funds		(a c)		1,951	
All Others	÷		-	-	
Total General Fund	\$	28,779	\$	1,951	
Major Governmental Funds

Non-major Governmental Funds		-				
Internal Service Funds		(2 :		1.55		
Total All Other Funds	\$		\$	-		
Total Interfund Transfers	\$	12,721	\$	12,721		

Inter-fund transfers for the current year end consisted of the following individual amounts:

Inter-fund transfers for the current year end consisted of the following individual amounts:

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and to cover operating deficits in funds such as the Food Service Funds. The District did make an operating transfer to the Food Service Fund during the current year for \$12,721.

During the current year ended August 31, 2016, the District did not make a one-time transfer of funds from the general fund to the debt service fund to subsidize, in part, the District's obligation of interest and sinking fund requirements.

E. DISAGGREGATION OF RECEIVABLES AND PAYABLES

Receivables at year end were as follows:

-	Property Taxes		Other vernments	ue From her Funds	0	other	Total Receivables		
Governmental Activities:

General Administration	
Plant Maintenance and Operations	4,17
Security and Monitoring Service	59
Data Processing Services	1
Community Services	1
Contracted Instructional Services Between Schools	
In addition, depreciation on capital assets held by the District's Internal Service	
Fund(s) is charged to the various functions based on their usage of the assets	5
otal Depreciation Expense	\$ 56,72

The District has no capital assets that are not being depreciated as of the current fiscal year end except for land.

G. SHORT-TERM DEBT PAYABLE

The District accounts for short-term debts for maintenance purposes through the General Fund. Short-term debts include notes made in accordance with the provisions of the Texas Education Code Section 45.108. The proceeds from loans are shown in the governmental fund financial statements as Other Resources and principal payments are shown as Other Uses. As shown by the following table, the District has no short-term debt payable.

Date of Issue/ Maturity	Description	Beginnin Balance	Amoun Issued	t	Amo Rede	ount emed	Ending Balance		
	None	\$	172	\$	-	\$		\$	2

H. BONDS AND LONG-TERM NOTES PAYABLE

Bonded indebtedness of the District is reflected in the General Long-Term Debt Account Group. Current requirements for principal and interest expenditures are accounted for in the Debt Service Fund. A summary of changes in general long-term debt for the current year end is as follows:

Description	Interest Rate Payable	O	ounts iginal ssue	Cur	rest rent ear	Payable Amounts Outstandin 9/1/15		Issu	ie d	Ret	ired	Am Outst	able ounts anding 1/16
None	0.00%	\$	-	\$	-	\$	-	\$	-	\$	2	\$	-
TOTAL				\$		\$		\$	198	\$	ŝ	\$	T

In prior years, the District has not defeased certain general obligation bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, no trust account assets and liabilities for the defeased bonds exist and none are included in the District's financial statements. On August 31, 2016, **\$0** of bonds considered defeased are still outstanding.

There are a number of limitations and restrictions contained in the general obligation bond indenture. District administration has indicated that the District is in compliance with all significant limitations and restrictions at year end.

I. COMMITMENTS UNDER OPERATING LEASES

Commitments under operating (non-capitalized) lease agreements for facilities and equipment provide for minimum future rental payments at year end as follows (the imputed interest on the leases range from 5.25% to 5.25%:

Year Ending August 31	
2017	\$ 35,128
2018	35,128
2019	31,344
2020	÷
2021	-
2022-2026	
2027-2031	 -
Total Minimum Future Rentals	\$ 101,600
Rental Expenditures in Fiscal Year 2016	\$ 38,030

J. DEBT SERVICE REQUIREMENTS – BONDS, CAPITAL LEASES, & OTHER LONG-TERM DEBT

Debt service requirements for bonds and other long-term debt (including capital acquisition notes) are as follows:

General O	bligations - Boi	nds and Notes F	ayable	
			Т	otal
Year Ended August 31	Prin	cipal Int	erest Requir	re me nts
2017	\$	- \$	- \$	=

2037-2041		-	. 	20 32
2042-2046			-	Ë
Totals	\$	- \$	- \$	-

Capital Leases

The District was obligated for capital leases as of or during the current year. The purpose of capital leases normally is for the purchase of equipment; capital leases are authorized under the Texas Education Code 48.05, the total amount capitalized under the capital lease is **\$0**, the minimum annual payments are **\$0**, and the effective rate of interest is **0.0%**. The capital lease was retired in full during the current year. Debt service requirements for capital leases are as follows.

Capital Lease Obligations							
Year Ended August 31	Princ	ipal	Interest	Total Requirements			
2017	\$	28	\$ -	\$-			
2018			: - :	-

Total Capital Lease Payments	\$:#:	\$ -	\$ -			

K. ACCUMULATED UNPAID VACATION AND SICK LEAVE BENEFITS

Upon retirement or death of certain employees, the District pays any accrued sick leave and vacation leave in "lump sum" cash payment to such employee or his/her estate. Individuals employed after October 1, 1985, are not eligible to receive the lump sum payments. A summary of changes in the accumulated sick leave and vacation leave liability follows:

	Sick I	Leave	Vacation Leave		
Balance September 1, 2015	\$		\$		
Additions - New Entrants and Salary Increments				-	
Deductions - Payments to Participants				-	
Balance August 31, 2016	\$	-	\$	-	

L. DEFINED BENEFIT PENSION PLAN

a. Plan Description

Rule Independent School District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

b. Pension Plan Fiduciary Net Position

Detail information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

c. Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic postemployment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description in (A) above.

d. Contributions

Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Employee contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83rd Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2014 thru 2017. The 83rd Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2014 and 2015. The 84th Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2016 and 2017.

	Contrib	ution Rate	es
	2015		2016
Member	6.7%		7.2%
Non-Employer Contributing Entity (State)	6.8%		6.8%
Employers	6.8%		6.8%
2015 Employer Contributions		\$	25,612
2015 Member Contributions		\$	74,259
2015 NECE On-Behalf Contributions		\$	61,610
Payments made by the State On-Behalf of the District for Medicare,	Part D:		
Fiscal year 2014 Medicare, Part D On-Behalf		\$	2,755
Fiscal year 2015 Medicare, Part D On-Behalf		\$	4,377
Fiscal year 2016 Medicare, Part D On-Behalf		\$	3,345

Contributors to the plan include members, employers and the State of Texas as the only nonemployer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.

When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to.

- When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.
- When a school district or charter school does not contribute to the Federal Old-Age, Survivors and Disability Insurance (OASDI) Program for certain employees, they must contribute 1.5% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

e. Actuarial Assumptions

The total pension liability in the August 31, 2015 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date	August 31, 2015
Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Market Value
Single Discount Rate	8.00%
Long-term expected investment rate of return	8.00%
Inflation	2.50%
Salary Increases including inflation	3.5 % to 9.5%
Payroll Growth Rate	2.50%
Benefit Changes during the year	None
Ad hoc post-employment benefit changes	None

The actuarial methods and assumptions are based primarily on a study of actual experience for the fouryear period ending August 31, 2014 and adopted on September 24, 2015.

f. Discount Rate

The discount rate used to measure the total pension liability was 8.0%. There was no change in the discount rate since the previous year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the nonemployer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term rate of return on pension plan investments is 8%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2015 are summarized below:

Teacher Retirement System of Texas Asset Allocation and Long-Term Expected Real Rate of Return As of August 31, 2015

	×		Expected
		Long-Term	Contribution to
		Expected	Long-Term
	Target	Geometric Real	Portfolio
	Allocation	Rate of Return	Returns (1)

Inflation Expectation			2.2%
Alpha			1.0%
Total	100.0%		8.7%

(1) The Expected Contribution to Returns incorporates the volatility drag resulting from the conversion between Arithmetic and Geometric mean returns.

g. Discount Rate Sensitivity Analysis

The following schedule shows the impact of the Net Pension Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (8%) in measuring the 2015 Net Pension Liability.

	1%	Decrease in			1%	Increase in
	Di	scount Rate	J	Discount Rate	Di	scount Rate
		(7.0%)		(8.0%)		(9.0%)
District's proportionate share of the net pension liability:	\$	486,278	\$	310,361	\$	163,834

h. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At August 31, 2016, the Rule Independent School District reported the liability for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the Rule Independent School District. The amount recognized by the Rule Independent School District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the Rule Independent School District were as follows:

District's proportionate share of the collective net pension liability	\$ 310,361
State's proportionate share that is associated with the District	735,274
Total	\$ 1,045,635

The net pension liability was measured as of August 31, 2015 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2014 thru August 31, 2015.

At August 31, 2015 the employer's proportion of the collective net pension liability and the percentage increase (decrease) from its proportion measured as of August 31, 2014 are shown in the required supplementary information in Exhibit G-2.

Changes Since the Prior Actuarial Valuation – The following are changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period:

Economic Assumptions

- 1. The inflation assumption was decreased from 3.00% to 2.50%.
- 2. The ultimate merit assumption for long-service employees was decreased from 1.25% to 1.00%.

3. In accordance with the observed experience, there were small adjustments in the service- based promotional/longevity component of the salary scale.

4. The payroll growth assumption was lowered from 3.50% to 2.50%.

Mortality Assumptions

5. The post-retirement mortality tables for non-disabled retirees were updated to reflect recent TRS member experience. Mortality rates will be assumed to continue to improve in the future using a fully generational approach and Scale BB.

6. The post-retirement mortality tables for disabled retirees were updated to reflect recent TRS member experience. Mortality rates will be assumed to continue to improve in the future using a fully generational approach and Scale BB.

7. The pre-retirement mortality tables for active employees were updated to use 90% of the recently published RP-2014 mortality table for active employees. Mortality rates will be assumed to continue to improve in the future using a fully generational approach and Scale BB.

Other Demographic Assumptions

8. Previously, it was assumed 10% of all members who had contributed in the past 5 years to be an active member. This was an implicit rehire assumption because teachers have historically had a high incidence of terminating employment for a time and then returning to the workforce at a later date. This methodology was modified to add a more explicit valuation of the rehire incidence in the termination liabilities, and therefore these 10% are no longer being counted as active members.

9. There were adjustments to the termination patterns for members consistent with experience and future expectations. The termination patterns were adjusted to reflect the rehire assumption. The timing of the termination decrement was also changed from the middle of the year to the beginning to match the actual pattern in the data.

10. Small adjustments were made to the retirement patterns for members consistent with experience and future expectations.

11. Small adjustments to the disability patterns were made for members consistent with experience and future expectations. Two separate patterns were created based on whether the member has 10 years of service or more.

12. For members that become disabled in the future, it is assumed 20% of them will choose a 100% joint and survivor annuity option.

Actuarial Methods and Policies

13. The method of using celled data in the valuation process was changed to now using individual data records to allow for better reporting of some items, such as actuarial gains and losses by source.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

For the year ended August 31, 2016, the Rule Independent School district recognized the following:

Year Ended August 31, 2016 pension expense	\$ 104,765
Revenue for support provided by the State	\$ 104,765

At August 31, 2016, the Rule Independent School District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	 red Outflows Resources	 rred Inflows Resources
Differences between expected and actual economic experiences	\$ 1,539	\$ 11,927
Changes in actuarial assumptions	6,469	11,072
Differences between projected and actual investment earnings	49,004	-
Changes in proportion and differences between the employer's		
contributions and the proportionate share of contributions	98,260	90
Total as of August 31, 2015 measurement date	\$ 155,272	\$ 23,089
Contributions paid to TRS subsequent to the measurement date	 25,612	
Total as of fiscal year-end	\$ 180,884	\$ 23,089

Pension	
Expense	
 Amount	
\$ 24,319	
24,319	
24,320	
33,462	
14,256	
11,507	

The net amounts of the employer's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

M. HEALTH CARE COVERAGE

The District provided health insurance coverage for employees under the provisions of the Teacher Retirement System of Texas (TRS) active care health insurance plan during the current year. The District paid premiums per month per employee to the plan. Employees, at their option, authorized payroll withholdings to pay premiums for dependents. The plan was authorized by Article 3.51-2, Texas Insurance Code and was documented by contractual agreement.

N. CHANGES IN LONG-TERM LIABILITIES

Long-term activity as shown in the Statement of Net Position at year end was as follows:

	eginning Balance	A	dditions	Re	ductions	Ending Balance	Within e Year
Governmental Activities:							
Bonds and Notes Payable:							
General Obligation Bonds	\$ -	\$		\$	-	\$ -	\$ -

O. DEFERRED INFLOWS - UNAVAILABLE REVENUE GOVERNMENTAL FUNDS

Unavailable revenue at year-end consisted of the following:

	e ne ral Fund	Rev	ecial venue 1nds	Se	Debt ervice Fund	Total		
Unavailable Tax Revenue	\$ 28,177	\$	S27	\$	5	\$	28,177	
State and Federal Grants	-				-		-	
Total Unavailable Revenue	\$ 28,177	\$	<u>1</u>	\$	2	\$	28,177	

P. DUE FROM OTHER GOVERNMENTS

The District participates in a variety of federal and state programs from which it receives grants to partially or fully finance certain activities. In addition, the District receives entitlements from the State through the School Foundation and Per Capita Programs. Amounts due from federal and state governments at year end are summarized below. All federal grants shown below are passed through the TEA and are reported on the combined financial statements as "Due from State Agencies" except for some federal programs which are received directly from the federal government for grants such as the REAP Program.

	Due From State			ue From	 e From			
FUND	Foundation Entitlements		~ ****	te State & eral Grants	Other ernments	Totals

R. LITIGATION

The District is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District is aware of pending exposure to claims related to these areas; however, legal counsel and the District do not expect any financial exposure to assets of the District.

S. CONSTRUCTION AND OTHER SIGNIFICANT COMMITMENTS AND CONTINGENCIES

The District at year end had not incurred or made any additional commitments and/or contingencies in connection with construction or other areas of significance.

T. JOINT VENTURE-SHARED SERVICE ARRANGEMENTS

The District is a member of the Haskell Knox Education Shared Services Arrangement ("SSA"). The SSA provides services for special education to member districts. Knox City-O'Brien Consolidated Independent School District is the fiscal agent for the SSA. In addition to the District, other member districts participate in the special education cooperative. The fiscal agent provides SSA services. The member districts provide the funds to the fiscal agent. The Shared Services Arrangements - Special Education has been accounted for using Model 3 in the SSA section of the TEA Resource Guide. The District has accounted for the payments to the fiscal agent of the SSA in the General Fund as intergovernmental expenditures. The District's expenditures to the SSA for the current year were as follows:

Shared Services Arrangement	Type of Services	Fiscal Agent	Funding Source	Fiscal Agent Special Revenue Fund	District Special Revenue Fund	Exp	rogram enditures rent Year
	Special	Knox City-	Special				
Haskell Knox SSA	Education	O'Brien CISD	Education	437	N.A.	\$	31,875
	Career &		State Carer &				
Haskell ISD SSA	Tech	Haskell CISD	Tech	N.A.	N.A.	\$	18,328
		TOTAL FUN	CTION 93 EX	PENDITU	RES	\$	50,203

The District also participates in shared service arrangements with other school districts for various educational activities. In addition to the District, other member districts participate in the educational cooperatives and the fiscal agent provides SSA services. The funding for each activity is received by the fiscal agent from the grantor agency. The fiscal agent then provides the funds to the member districts. According to guidance provided in TEA's Resource Guide, the Fiscal Agent has accounted for the fiscal agent's activities of the SSA in a Special Revenue Fund. The Shared Services Arrangements has been accounted for using Model 1 in the SSA section of the TEA Resource Guide. The District neither has a joint ownership interest in fixed assets purchased by the fiscal agent, nor does the district have a net equity interest in the fiscal agent. The fiscal agent is neither accumulating significant financial resources nor fiscal exigencies that would give rise to a future additional benefit or burden to the District. The fiscal agent manager is responsible for all financial activities of the shared services arrangement. Presented below are the shared service arrangements in which the District participates and the extent of funding received and expended under each program.

Shared Services Arrangement	Type of Services	Fiscal Agent	Funding Source	Fiscal Agent Special Revenue Fund	District Special Revenue Fund	Expe	gram iditures int Year
	Special	Knox City-	IDEA, Part B -				
Haskell Knox SSA	Education	O'Brien CISD	Formula	313	224	\$	6,923

U. SUBSEQUENT EVENTS

In preparing the basic financial statements, District administration has evaluated events and transactions for potential recognition or disclosure through **December 14, 2016**, the date this Annual Financial Report was issued. No material subsequent events had occurred in the period of August 31, 2016 through that date.

V. RELATED ORGANIZATIONS

The District at present does not maintain an Educational Foundation (the "Foundation"). These entities are usually established as a not-for-profit entity to provide assistance and support for teachers and students to develop special programs and projects and other school district support activities. This entity would be a "related organization" of the District as defined by *Governmental Accounting Standards Board Statement No. 14 and amended by Statements 39 and 61*.

W. RELATED PARTY TRANSACTIONS

The District incurs related party transactions with businesses owned or employers for various members of the board of trustees. The District did not incur any material reportable related party transactions or balances as of and during the current year end.

X. FUND BALANCE / NET POSITION ADJUSTMENTS

The District did not make a fund balance adjustment or a net position adjustments during the current year.

Y. WORKERS COMPENSATION / PROPERTY & CASUALTY / UNEMPLOYMENT

Workers' Compensation Program

During the current year, the District met its statutory workers' compensation obligations through participation in the TASB Risk Management Fund (the Fund). The Fund was created and is operated under the provisions of the Inter-Local Cooperation Act, Chapter 791 of the Texas Government Code. The Fund's workers' compensation program is authorized by Chapter 504, Texas Labor Code. All members participating in the Fund execute Inter-Local Agreements that define the responsibilities of the parties. The Fund provides statutory workers' compensation benefits to its members and their injured employees.

The Fund and its members are protected against higher than expected claims costs through the purchase of stop loss coverage for any claim in excess of the Fund's self-insured retention of \$1.5 million. The Fund uses the services of an independent actuary to determine reserve adequacy and fully funds those reserves. As of August 31, 2016, the Fund carries a discounted reserve of \$72,966,132 for future development on reported claims and claims that have been incurred but not yet reported. For the year ended August 31, 2015, the Fund anticipates no additional liability to members beyond their contractual obligation for payment of contributions.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each plan year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31 are available at the TASB offices and have been filed with the Texas Department of Insurance in Austin.

Workers' Compensation Program- Prior Year Coverage

Beginning September 1, 1992 and ending August 31, 2010, the District established a self-insurance plan for workers' compensation benefits as authorized by Section 504.011 of the Labor Code. The District participates in this plan (West Texas Educational Insurance Association self-funded workers' compensation program) along with other participating entities. The District contributes annual amounts determined by Claims Administrative Services, Inc. As claims arise, they are submitted to and paid by Claims Administrative Services, Inc. on behalf of the District under terms of a contractual agreement. According to state statute, the District is protected against unanticipated catastrophic claims and aggregate loss by coverage carried through a commercial insurer licensed or eligible to do business in Texas in accordance with the Texas Insurance Code. Coverage was in effect for specific occurrences exceeding \$225,000 and aggregate retention at \$2,000,000.

The costs associated with this self-insurance plan are reported as inter-fund transactions to the extent of amounts actuarially determined. Accordingly, they are treated as operating revenues of the Internal Service Fund and operating expenditures of the General Fund. The liabilities of the plan include incurred but not reported claims. These liabilities reported in the funds at August 31, 2016, are based on the requirements of Governmental Accounting Standards Board No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. These liabilities include an amount for claims that have been incurred but not reported.

Because actual claims liabilities depend on such complex factors as inflation, changes in legal doctrines and damage awards, the process used in computing claims liability does not necessarily result in an exact amount. Claims liabilities are reevaluated periodically to take into consideration recently settled claims, the frequency of claims and other economic and social factors. Workers' compensation liabilities for incurred losses to be settled by fixed or reasonably determinable payments over a long period of time were computed by an actuary and are reported at their present value using an expected future investment yield assumption.

Estimates of claims payable and of claims incurred, but not reported at August 31 are reflected as accounts and claims payable of the Fund. The plan is funded to discharge liabilities of the Fund as they become due.

-		
	Year Ended	Year Ended
	August 31,	August 31,

Changes in the balances of claims liabilities during the past year are as follows:

	gust 31, 2015	Α	ugust 31, 2016
Unpaid claims, beginning of year	\$ 2,577	\$	2,351
Incurred claims (including IBNR'S)	60		(243)
Claim Payments	(286)		(157)
Unpaid claims, end of year	\$ 2,351	\$	1,951

Property / Casualty Program

During the current year ended, the District participated in the TASB Risk Management Fund's (the Fund's) Property Casualty Program with coverage for the following:

Crime,
 General Liability,
 Property,
 Sexual Misconduct Endorsement, and
 SP Legal Liability.

The fund was created and is operated under the provision of the Inter-local Cooperation Act, Chapter 791 of the Texas Government Code. All members participating in the Fund execute Inter-local Agreements that define the responsibilities of the parties.

The Fund purchase stop-loss coverage for protection against catastrophic and larger than anticipated claims for the Property Casualty Program. The terms and limits of the stop-loss program vary by line of coverage. The Fund used the services of an independent actuary to determine the adequacy of reserves and fully funds those reserves. For the current year ended, the Fund anticipates that the District has no additional liability beyond the contractual obligations for payment of contributions.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each plan year on August 31. The audit is approved by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2015, are available at the TASB offices and have been filed with the Texas Department of Insurance in Austin.

Unemployment Compensation Program

During the current year, the District provided unemployment compensation coverage to its employees through participation in the TASB Risk Management Fund (the Fund). The Fund was created and is operated under the provisions of the Inter-local Cooperation Act, Chapter 791 of the Texas Government Code. The Fund's unemployment compensation program is authorized by Section 22.005 of the Texas Education Code and Chapter 172 of the Texas Local Government Code. All members participating in the Fund execute Inter-local Agreements that define the responsibilities of the parties.

The Fund meets it quarterly obligations to the Texas Workforce Commission. Expenses are accrued each month until the quarterly payment has been made. Expenses can be reasonably estimated; therefore, there is no need for specific or aggregate stop loss coverage for Unemployment Compensation pool members.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each plan year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31 are available at the TASB offices and have been filed with the Texas Department of Insurance in Austin.

Z. SCHOOL DISTRICT RETIREE HEALTH PLAN

Plan Description. Rule Independent School District contributes to the Texas Public School Retired Employees Group Insurance Program (TRS-Care), a cost-sharing multiple-employer defined benefit postemployment health care plan administered by the Teacher Retirement System of Texas (TRS). TRS-Care Retired Plan provides health care coverage for certain persons (and their dependents) who retired under the Teacher Retirement System of Texas. The statutory authority for the program is Texas Insurance Code, Chapter 1575. Section 1575.052 grants the TRS Board of Trustees the authority to establish and amend basic and optional group insurance coverage for participants. The TRS issues a publicly available financial report that includes financial statements and required supplementary information for TRS-Care. That report may be obtained by visiting the TRS Web site at www.trs.state.tx.us, by writing to the TRS Communications Department, 1000 Red River Street, Austin, Texas 78701, or by calling the TRS Communications Department at 1-800-223-8778.

Funding Policy. Contribution requirements are not actuarially determined but are legally established each biennium by the Texas Legislature. Texas Insurance Code Sections 1575.202, 203, and 204 establish state, active employee, and public school contributions, respectively. The State of Texas and active public school employee contributions rates were 1.0% and 0.65% of public school payroll, respectively, with school districts contributing a percentage of payroll set at 0.55%. Per Texas Insurance Code, Chapter 1575, the public school contribution may not be less than 0.25% or greater than 0.75% of the salary of each active employee of the public school. For the last three years, the State's contributions to TRS-Care, the active member contributions, and the school District's contributions are listed below. Respectively, these contributions equaled the required contributions each year.

	Contribution Rates and Contribution Amounts												
	Me	mber	Dist	rict	State On-Behalf								
Year	Rate	Amount	Rate	Amount	Rate	Amount							
2016	0.65%	\$ 6,704	0.55%	\$ 5,673	1.00%	\$ 10,314							
2015	0.65%	\$ 6,898	0.55%	\$ 5,837	1.00%	\$ 10,613							
2014	0.65%	\$ 6,637	0.55%	\$ 5,616	1.00%	\$ 10,211

The schedules should not include information that is not measured in accordance with the requirements of this Statement."

RULE INDEPENDENT SCHOOL DISTRICT NOTES TO REQUIRED SUPPLEMENTARY INFORMATION YEAR ENDED AUGUST 31, 2016

Changes of benefit terms

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

Changes of assumptions

The following are changes to the actuarial assumptions or other inputs that affected the measurement of the total pension liability since the prior measurement period.

Economic Assumptions

- 1 The inflation assumption was decreased from 3.00% to 2.50%.
- 2 The ultimate merit assumption for long-service employees was decreased from 1.25% to 1.00%.
- 3 In accordance with the observed experience, there were small adjustments in the servicebased promotional/longevity component of the salary scale.
- 4 The payroll growth assumption was lowered from 3.50% to 2.50%.

Mortality Assumptions

- 5. The post-retirement mortality tables for non-disabled retirees were updated to reflect recent TRS member experience. Mortality rates will be assumed to continue to improve in the future using a fully generational approach and Scale BB.
- 6. The post-retirement mortality tables for disabled retirees were updated to reflect recent TRS member experience. Mortality rates will be assumed to continue to improve in the future using a fully generational approach and Scale BB.
- 7. The pre-retirement mortality tables for active employees were updated to use 90% of the recently published RP-2014 mortality table for active employees. Mortality rates will be assumed to continue to improve in the future using a fully generational approach and Scale BB.

Other Demographic Assumptions

- 8. Previously, it was assumed 10% of all members who had contributed in the past 5 years to be an active member. This was an implicit rehire assumption because teachers have historically had a high incidence of terminating employment for a time and then returning to the workforce at a later date. This methodology was modified to add a more explicit valuation of the rehire incidence in the termination liabilities, and therefore these 10% are no longer being counted as active members.
- 9. There were adjustments to the termination patterns for members consistent with experience and future expectations. The termination patterns were adjusted to reflect the rehire assumption. The timing of the termination decrement was also changed from the middle of the year to the beginning to match the actual pattern in the data.
- 10. Small adjustments were made to the retirement patterns for members consistent with experience and future expectations.
- 11. Small adjustments to the disability patterns were made for members consistent with experience and future expectations. Two separate patterns were created based on whether the member has 10 years of service or more.
- 12. For members that become disabled in the future, it is assumed 20% of them will choose a 100% joint and survivor annuity option.

Actuarial Methods and Policies

The method of using celled data in the valuation process was changed to currently using individual data records to allow for better reporting of some items, such as actuarial gains and losses by source.

Government Auditing Standards Report on Internal Control over Financial Reporting and on Compliance and Other Matters—with No Material Weaknesses, Significant Deficiencies, or Reportable Instances of Noncompliance or Other Matters Identified

INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees Rule Independent School District Rule, Texas 79547

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Rule Independent School District, as of and for the year ended August 31, 2016, and the related notes to the financial statements, which collectively comprise Rule Independent School District's basic financial statements, and have issued our report thereon dated December 14, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Rule Independent School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Rule Independent School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Rule Independent School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Rule Independent School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectfully submitted,

James E. Rodgers and Company

James E. Rodgers and Company, P.C.

RULE INDEPENDENT SCHOOL DISTRICT SCHEDULE OF FINDINGS AND RESPONSES FOR THE YEAR ENDED AUGUST 31, 2016

I. Summary of the Auditor's Results:

- 1. Type of report issued on the financial statements Unmodified opinion.
- 2. Significant deficiencies in internal control None.

Significant deficiencies that were material weaknesses - None.

3. Noncompliance, which is material to the financial statements – None.
